Dr. James Gaume  
Space Flight Laboratories  
Martin-Marietta Co.  
Littleton, Colorado

Dear Dr. Gaume:

Please accept our sincere thanks for your splendid cooperation in providing a tour of the Space Medicine and Biology Laboratories and the Titan Missile Plant on 16 May 1962 for the attendees at the MEND Symposium, Nutrition in National Defense, recently held at our Laboratory. I received numerous extremely favorable comments from the attendees concerning the tour which you provided. It was most interesting, educational, and your warm hospitality was very much appreciated. Please also relay our thanks to your staff and associates at the Martin-Marietta who helped make the tour so enjoyable.

Sincerely yours,

*Marion E. McDowell*
