17 June 1971

Dr. William W. Thornton
NASA Manned Spacecraft Center
Houston, Texas 77001

Dear Bill,

This is just to confirm your engagement with the Garfield County Medical Society at Vance on the 27th of October at 7:30 p.m. Let Ops know you're coming (PPR!) and we'll see to it that you get real VIP treatment. We still need a brief resume of your background, doings, etc.

I'm enclosing a copy of Bob Memby's chain letter to members of our intern class - won't send you ~~ALINE~~ because you already know. Bob wants you to read it, add one about your activities since 1963, and send both to two other members of our intern group.

Sorry we missed you in HOU, but am certainly looking forward to seeing you this Fall as is the Society. Say Hi to Jennifer - it's a shame you can't plug her into your back seat when you come!

See you -

A handwritten signature in cursive script, appearing to read "Chuck", is written above the typed name.

CHARLES P. KIRKLAND, Lt Col, USAF, MC
Director, Base Medical Services
