Morris M. Weiss, Sr., M. D.
614 Brown Building
Louisville 2, Kentucky

Dear Dr. Weiss:

Thank you very much for your letter of the first. It was a pleasure to talk to you about some of the early developments in this field. I have had a great number of requests for circuitry and we are currently in the process of reproducing a number of copies. As soon as this is completed I will send you one. If there is any additional information you might desire, please contact me.

Respectfully yours,

William Thornton, B. S.
Department of Anesthesiology
