

SD/90

TO: MacDonnell Douglas Corporation
Attn: CHeCS, J753/Rick Smith

FROM: SD/William Thornton, M.D.

SUBJECT: Treadmill

If you get the treadmill together in time to fly, be sure to get some calibrated tracings at 100 and 250 mm sec. and large amplitude of 2-3 subjects walking, jogging, and running on it. Get at least one to run with heel striking first.

William Thornton, M.D.
