Dear Mr. Thornton:

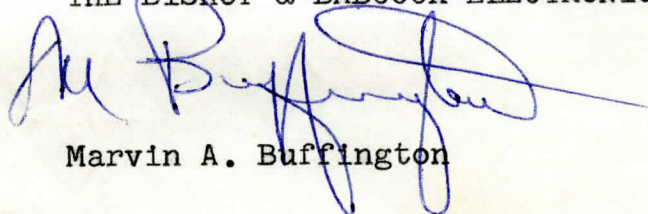

We received your EKG unit and charger this week, but will not have a chance to try it out until the first of December because I'm going to Chicago for a while.

As you suggested, I will put off getting the additional EKG unit until further notice, as we particularly wanted it for blood pressure monitoring and, if I interpret your letter correctly, it is not directly suitable for that. If you find out anymore about a practical method of blood pressure telemetering, I would appreciate learning about it.

I will let you know how we make out as soon as we put the unit into practical use.

Sincerely yours,

BUFFINGTON ELECTRONICS DIVISION
