

31 October 1960

Dr. A. Buchanan Barbour
Chairman - Congress Organisation Council
European Congress of Aviation Medicine
Hounslow, Middlesex, London

Dear Dr. Barbour

I was delighted to receive your letter of 5 October stating that the papers presented at the European Congress would be published in book form. I think the many excellent presentations at this meeting should provide a very excellent scientific reference work and congratulate you on your endeavor.

Inclosed you will find a corrected copy of my manuscript and copies of the slides which I used in the presentation. I am certainly agreeable to the inclusion of this paper in your publication.

I would also like to congratulate you and the members of your committee for having produced what I consider one of the best organized medical meetings in which it has been my privilege to participate. Your excellent plans covered not only the superior scientific program, but the outstanding social program as well. It should be a meeting which will be long remembered by all those attending.

Sincerely yours

CHARLES A. BERRY
Lt Colonel, USAF, MC
Aerospace Medicine Division
Office of the Surgeon General
