Navy et A.F.Q.C.C.

Sending certain laboratory Test Equipment to their manufacturer or service organization for certification to manufacturers specification. This complies with (.2) of U.S.A.F. form by C. F. Skillman, A.F.Q.C.C. This action will make available gages and standards of known accuracy to Del Mar Engineering Laboratories. Purchasing this certification outside complies with (.3) of above form. (.5) should be listed as a sub-paragraph under more general category of (.2). Section 101, Specifications for Technical Data for control of Test Equipment are being prepared so as to conform with this section. Test Equipment will be identified or marked with inspection tags giving date and name of calibrating firm, which complies with Section 102.

Section 103 should be included under Section 101 as this is part of procedure for master control of Test Equipment.

In conclusion, Del Mar Engineering Laboratories will be able to show A.F.Q.C.C. on October 16, 1957 that we have complied with his U.S.A.F.Q.C.C.A.R. effective October 17, 1957 with an expenditure of less than \$150.00.
