Lt. C. B. Mohler /MSC  
Bureau of Med. and Surg. 31T4  
Navy Department  
Washington 25, D. C.

Dear Sir:

Capt. Hunly suggested that I contact you for further information on the Navy's internship program. I received my M. D. last June, have an inactive Air Force Reserve commission, and am interested in re-entering service if training and assignment in Aerospace medicine is available. An internship must be completed first and as soon as possible. Any information or comments on these subjects would be appreciated.

A resume of previous training and experience is included.

Respectfully,

William Thornton, M. D.
