SUBJECT: Undated letter to Prof. A. I. Oparin, Moscow, Russia, regarding a six-month visit to Ames By Dr. M. Kritsky

Code I does not concur in the mailing of the subject letter. We would appreciate receiving some background information, i.e., which US-USSR exchange program, specific area of research, is there an agreement for a US scientist to spend six months in the USSR, what would NASA gain from the exchange, etc.

We would appreciate being advised in writing of this information.

Professor A. I. Oparin

Moscow, U.S.S.R.

Dear Professor Oparin:

It has been almost two months since Dr. Richard S. Young, of NASA Headquarters, and I spoke with you in Barcelona about the possibility of bringing Dr. M. Kritsky, of your Institute, to Ames for about six months on the U.S.-U.S.S.R. exchange program.

I believe it would be mutually beneficial if such an arrangement could be effected. For our part, we would be pleased if Dr. Kritsky could work with us here.

Since it will, of necessity, take a fair amount of time to proceed on this matter, I would like to learn from you, at your earliest convenience, when and under what conditions Dr. Kritsky would be available.

With all good wishes.

Sincerely yours,

Harold P. Klein
Director of Life Sciences
