

Dear Bruce

Each of us feels that there ~~are~~ ^{is} a number of things he must try to accomplish. Four years ago I chose to try to enter a new area ~~in~~ you. My goals were several 1) to produce make A.B.P. a usable and tested tool for medicine ~~the~~ avoiding many of the problems of ~~an~~ developing Holter 2) ~~to~~ develop the most efficient system for you 3) to use the equipment so developed for my own investigations 4) to maintain medical proficiency & financial solvency. Absolutely essential to this work was a medical base of operations in this case Dr. Wallace & V T M B. You have had for two years a tested, highly developed, ^{albeit unreluctant} system which cannot fail to become ~~a~~ ^{an} essential tool in medicine. The one thing missing is education of the profession to its use and this was well in hand when you chose to sacrifice ~~enough~~ ^{to get a definitive} all my efforts as well as any professional standing ~~in~~ Wallace for the sake of a few thousand dollars in "sales" while at the same time

Since the first of the year I have gone through a ~~rather~~ personal inventory and review ~~and~~ preparing to making a final major effort. In review of the past two years my efforts associated ~~in~~ the B P apparatus are hard to believe - they have been professional and scientific disasters. Even worse has been the emotional price of being caught

making my best efforts for the ~~mutual~~ benefits of
yourself & Wallace ~~but~~ being considered by each to
be the agent of the other and treated accordingly.

Since you have a big successful company
~~which~~ whose demands have passed me by.

For this and other reasons it I must terminate
my ^{paid} consulting arrangement ~~to~~ you. Take the
~~fun~~ money and ~~get~~ find a ^{mother} ~~couple~~ of other
~~hot dogs~~ medical ^{person} ~~people~~ like Kennedy and so
long as you keep the new stuff coming it will
be more ~~for~~ profitable to you. I am going to do
some ~~respectable~~ medicine; it pays well & regularly,
and ~~sets~~ probably school and if I ~~do~~ ever
do any development/investigation it will be ~~a~~ my
equipment/~~more~~ ideas & patients. No fear ^{that} it will ~~not~~
involve B.P.

You realize I hope that this has nothing at
all to do ~~to~~ our personal relationship which has
become one of my oldest & closest. ~~mine~~. If there
is any ^{reasonable} way I can aid your efforts I ~~sho~~ in
any ~~way~~ ~~a~~ informal way ~~to~~ please don't hesitate
to call and will look forward to seeing you
sooner than later -

Sincerely
Bill
