BOWLING

Betty Dickman gave women of the Ball & Chain League something to shoot at with a sizzling 223 actual game. Teamed with her husband and another couple the Sandbaggers grabbed three games. Betty's 463 actual series helped her 129 average. **John Coan** of the Five & One holds the men's high game with a whopping 255.

* * *

Jerry Pluto and **Joe Betthausen**, members of the representative team bowling in the Tri-County Classic League recently turned in the following pin counts. Betthausen—274, 215 and 216 for a 705 series count. Pluto—10 straight strikes before a miss to roll a 284 single game.

* * *

Adell Higgins, Materiel, member of the representative womens team bowling in the ABC Scratch League, scored a 297 game during a recent practice session. Adell hit 11 straight strikes and got 7 pins and a spare in her last frame.

* * *

BASKETBALL

Neil Mehring, Materiel, has taken over the reigns of the Missiles plant basketball team. Neil served several years as a coach at the University of Nebraska and later at Adams State in Colorado.

The Missiles displayed excellent potential in their first scrimmage with DU. The roster for that game included **Keith Patten**, **Wayne McClure**, **Terry Rand**, **Don Verdoorn**, **Dave Parker**, **A. C. Howerton**, **Lloyd Satterwaite**, **George Jones**, **Dick Rademacher**, **Wayne Leslie**, "Chuck" **Parker**, **Wendell Johnson**, **Russ Hayslett**, **Gary Elm** and **Mike Lucas**.

League play will begin in January. **Larry Reed**, manager of the DIRF team, has lined up several practice games for December. His team will concentrate mostly on speed.

* * *

Eighteen teams of fifteen men each will make up the three ID leagues this season with all facilities represented. The 6-team leagues will operate on Monday, Tuesday and Wednesday nights starting December 5.

League teams and managers this year are: **MONDAY**—Projectiles, **John Vold**; Propulsion, **Dick Kenny**; Fat Daddies, **Al Cutshaw**; Immaterial, **John Burkhardt**; Tabulating, **Harlan Zier**; and Hillbillies, **Dave Nunn**. **TUESDAY** — 6%ers, **Tom Wetzel**; Shaker Five, **Lou Poulter**; Srats, **Bob Gray**; Clay St., **Dan Martinez**; Malfunctions, **Jim McAnnally**; D-3, **Al Madrid**. **WEDNESDAY**—Misfires, **Larry Osborne**; T-1, **Jewel Davis**; Ft. Logan, **Don Crook**; Outcasts, **Bob Black**; Strappers, **Gayle Parker**, and Timekeeping, **Mac McGuire**.

* * *

CHESS

The Chess Club has scheduled December 19 to hold its annual election of officers and officially conclude its present tournament. President **V. Sluckey**, **W. Martin** and **H. Knudsen** make up the nominating committee for the new officers.

T-Flag Display OK'd For TITAN Bases

Operational bases for the TITAN intercontinental ballistic missile have been given the go-ahead to fly the Treasury's Minuteman T-Flags after achieving 90 per cent or more employee participation in the U. S. Savings Bond program for a period of 30 days.

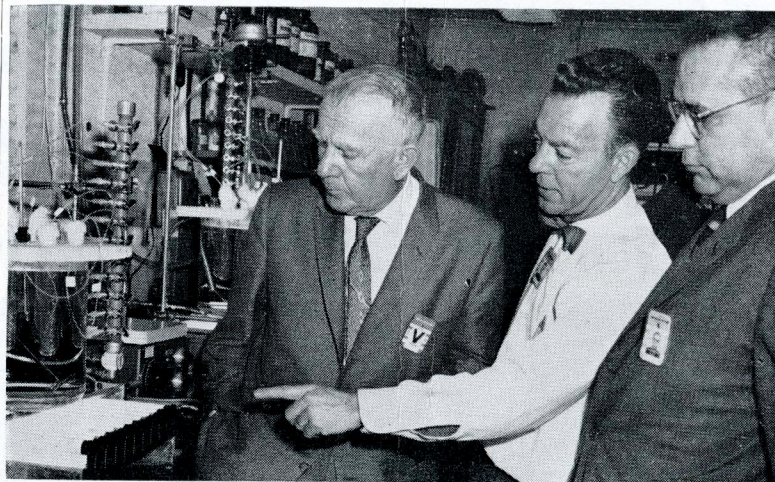

Authority to display the T-Flag at such missile sites was recently cleared through the Treasury Department in Washington, according to **N. A. Johnson**, area manager in Denver, Colo., for the Savings Bond Division.

Reports from TITAN bases so far show that T-3, Mountain Home, Idaho, and T-5, Marysville, California, have both achieved 100 per cent Martin employee participation and are eligible to fly the T-Flag.

T-2, at Ellsworth AFB, South Dakota, is also eligible to fly the T-Flag with 99.6 per cent participation. This report was made last week by **E. P. Mussett**, manager of T-2 operations.

Character is not made in a crisis—it is only exhibited.

Space Medicine 'Father' at Denver

DR. ROBERT D. GAFFORD, HEAD RESEARCH scientist in ecological studies at Martin, points out to **Dr. Hubertus Strughold**, visitor from the Aerospace Medical Center in Texas, one of several space living experiments presently being conducted at the Denver plant. **Dr. James G. Gaume**, right, chief of the Denver Division's Space Biotechnology Section, toured the internationally famous scientist throughout the Martin facilities during his one day tour Tuesday, Nov. 15. **Dr. Strughold**, known better in his field as the "Father of Space Medicine," serves as advisor for research to the commandant of the Air Force School of Aviation Medicine, Aerospace Medical Center, Brooks Air Force Base, San Antonio, Texas. **Dr. Gaume** served under the noted medical scientist at AMC prior to his joining The Martin Company in 1957.

AIRLINE TRAVEL

Time Saving Teleticketing Service Now in Operation

Travel service activities took on a new look at the Denver Division during the week of November 14 with the beginning of a new airline ticketing process. Now in operation is a "Teleticketing machine" that provides flight tickets within 15 minutes after reservations are requested.

"This new device has eliminated the heretofore time consuming process of Travel personnel having to write up each ticket," **George Theobald**, Travel Service supervisor, said. "Better and faster service can now be provided at several points to Martin per-

and within minutes the requested information is sent over the wires to Martin in the form of a ticket.

Martin's Denver account is with The Continental Airlines which acts as service supplier for other airlines (not equipped with the teleticketing transmitter) used by Martin's traveling personnel.

This is a relatively new system in the Denver area. The machine
