REPLY TO
ATTN OF: AT3

July 31, 1975

MEMORANDUM

TO: DF/William Thornton, Technical Monitor

FROM: AT3 /Technology Utilization Officer

SUBJECT: Contract NAS9-14377, Whitmore Enterprises

The enclosed letter was submitted by the contractor in compliance with the New Technology clause in the subject contract. During performance of the work, the contractor has reported the following items of new technology:

None.

The New Technology clause requires the contractor to identify and document all reportable items made in the performance of the contract. "Reportable item" is defined as any invention, discovery, improvement, or innovation, (whether or not patentable), which was conceived or first reduced to practice under this contract. The contract also provides for the withholding of certain funds pending our certification that the contractor has complied with the provisions of the New Technology clause.

We need your help in identifying any new technology which the contractor should have reported. Please complete the attached memo and return it to AT3 at your earliest opportunity. We will ask the contractor to report any items you identify.

John T. Wheeler
