Mr. T. O. Thompson and Dr. T. G. Gamme  
The Martin Company  
Denver, Colorado

Dear Dr. Thompson and Dr. Gamme:

Captain Graybiel who saw your exhibit in Woods Hole suggested that I get in contact with you concerning a possible demonstration of the Lunar Laboratory at the Miami meetings of the American Association for Health and Physical Education and the American College of Sports Medicine which take place at the same time on April 22 to 24 1960. I am sure that the audience of these two sports minded associations would be greatly interested in your approach. I would appreciate hearing from you at your convenience.

Sincerely yours,

*D. E. Beischer*  
D. E. Beischer, Ph.D.
