

GEORGY TIMOFEEVITCH BEREGOV

Performed a solo space flight in "Soyuz-3" from 26-30 October 1968
and was awarded the J.A. Gagarin Gold Medal (see attached criteria)

"Soyuz-3" set the World Class Record for Greatest Mass
Lifted (14,495 lbs) with one-man spacecraft. This was an orbital
flight of 60 revolutions (64 orbits).

Highest altitude reached - 156 miles.

Duration of the mission was 94 hours 51 minutes.
