

Beloit Wisc.

Aug. 3; 1974

President of the University of  
Texas Health Science Center.

Dr. Charles A. Berry:

Dear, Dr. Charles A. Berry!

It's wonderful to have the Freedom and Privilege to write to anybody! I'm Space Songwriter Mrs. Sven M. Swanson from Beloit Wisc. I write to you as you been the First and Successful Dr. of U.S.A. Space Program over the years up to now. It was outstanding, job well done, it demand a skillful sound judgement continually. I been fortunate to see all the blast off for the Space, landing on the Moon and taking off again and splashing down in the Ocean. I'm very thankful for that chance. I highly admire the talent, skill and guts it took to be successful. I was specially interested as I wrote songs about the Space. Title, Space Platform Polka.

2] Space Gemini Polka, Hot Dm-  
f. Possible waltz On The Moon, Space  
Lullaby e.t.c. They were written in  
imagination, some become a reali-  
ty others will be. Some now, Space  
Lullaby are written so if a woman  
take her child with her in This  
Space Shuttle, she could use  
This Lullaby song for her baby  
in so doing, This song will be  
a reality. I think you Dr. Berry  
would be interested in This songs,  
so I like to honor you with This  
as a keep sake from Space Ex-  
ploration. I was the only one in  
the whole world with Those kind  
of songs for ever.

I would Love to be honored of a  
autographed picture of you as a  
keep sake also from The Space Pro-  
gram. will close with our heart  
warm Thanks and Congratulation  
for your outstanding work. wish-  
ing you Best of health, Luck and  
Success in your new Post. God bless  
you all and your Dear Family.

Sincerely, yours  
Mr. Sven H. Swanson
