Dear Bill

Here's some more paper work. However Banghart phoned me and explained that he wasn't trying to make life difficult - He has a contract - which buys reports & also requires hourly breakdowns - otherwise the auditors won't pass invoices for payment. So if any of the financed boys try again to sell you a deal like this - please try & get me off the hook. I believe that this finishes us with Florida. Ev

He seemed to be a pretty decent guy on the phone - but he has his problems also!
