Dr. James G. Gaume, Chief
Bio-Technology Division
The Martin Company
Denver 1, Colorado

Dear Dr. Gaume:

I wish to express appreciation on behalf of the Kansas City Section for a most enlightening and interesting address which you gave the evening of April 27. Certainly, no-one attending regretted it, and many others after reading about it in the Kansas City STAR were sorry they missed it. This meeting was easily our most outstanding one of the year.

We were pleased to meet Mr. Herbert Wolff of the Public Relations Department of Martin. His assistance in operating the projector was greatly appreciated.

We are also indebted to the Martin Company for making this meeting possible. These efforts will greatly aid the growth and improve the technical stature of ARS.

All of us wish you, Dr. Gaume, the best of success with your work in this new field of research. We certainly will look forward to having you return for a "progress report" sometime in the future.

Very truly yours,

Frank H. Inderwiesen

Frank H. Inderwiesen, President
ARS, Kansas City Section
