

UNITED STATES GOVERNMENT

Memorandum

Shoulton

TO : CB/AAP Astronauts

DATE: SEP 25 1969

FROM : CB/Head, Experiments Section

SUBJECT: Assignment of responsibility for AAP non-medical corollary experiments

Effective immediately the following named persons are to assume primary responsibility for flight crew inputs to the development for flight of the indicated experiments. I will continue to represent our office on design review boards and, at least initially, to participate in as many of the development activities associated with each experiment as possible.

Technological

T-003 - Inflight Nephelometer: England
T-013 - Crew/Vehicle Disturbances: Henize/Parker
T-020 - Foot Controlled Maneuvering Unit: Chapman/McCandless
T-025 - Coronagraph Contamination Measurement: Henize/Parker
T-027 - Contamination Measurement: Henize/Parker

Engineering

M-479 - Zero "G" Flammability: Allen/Chapman/McCandless
M-512 - Materials Processing in Space: Allen/Chapman/McCandless
M-507 - Gravity Substitute Workbench: Allen
M-508 - EVA Hardware Evaluation: McCandless/Allen
M-509 - Astronaut Maneuvering Equipment: McCandless/Chapman/Lind

Department of Defense

D-008 - Radiation in Spacecraft: Allen
D-021 - Expandable Airlock Technology: Allen
D-024 - Thermal Control Coatings: Allen

Scientific

Scientific Airlock: Henize/Parker
S-019 - U/V Stellar Astronomy: Henize/Parker
S-020 - U/V X-Ray Solar Photography: Henize/Parker
S-073 - Gegenschein/Zodiacal Light: Henize/Parker
S-149 - Particle Collection: Henize/Parker
S-009 - Nuclear Emulsion: Allen
S-061 - Potato Respiration: McCandless
S-063 - U/V Airglow Horizon Photography: Chapman

Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

For completeness, it should be noted that another Section is handling the Earth Resources Experiments. This package is expected to consist of:

S-101 - Multiband Photography
Wideband Infrared Imager
Infrared Spectrometer
Active/Passive Microwave Imager

These will be followed by:

McCandless
