Dr. James Gaume  
Manager of Aviation Medicine, Safety Research  
McDonnell Douglas Corp.  
Long Beach, CA.

Dear Dr. Gaume,

I read the article in the Los Angeles Times, November 14, 1971 pertaining to the machine that will permit patients to walk under reduced force of gravity.

Is such a machine available to a patient? I would like to know its location for a person who has suffered a severe coronary and cannot walk but wants to very badly. It is simply a matter of balance and this machine sounded as if it could be corrective.

Thank you for any information that you may give.

Very truly yours,

*Wilma H. Bangert*  
(Miss) Wilma H. Bangert
