Dear Bill:

Re: Docket 625

This is merely to remind you that you were to send us the following items:

1. Outline sketch of the camera.
2. Detailed drawings of the camera lens modified to incorporate the image from the scope.
3. A print of an illustration of the film strip to be used in your latest brochure.

You also were going to let us have that Air Force Report again, but I forgot to pick it up from you as we were leaving. Will you please send it along with the other material.

We would like to get this filed just as soon as possible, and as soon as we get these items from you, we will proceed with the application.

Very truly yours,

Keith D. Beecher
