Dear Bill:

Thank you very much for a most pleasant trip to Texas Lutheran. I envy you! I called Sarah N. and agreed to send preliminary data and write up on fluid shifts to her in the next week or so. Also, the more I think of your comments on getting something published on exercise status, the more sense it makes. A review article with both rationale and hardware would seem most appropriate. May come back to you on this.

The receipts you requested are enclosed. Again, thank you and when you are over here, give me a call.

Sincerely,

Bill

William E. Thornton, M.D.
