TEAGUE AUDITORIUM 20TH ANNIVERSARY FILM SCHEDULE JULY 17-23, 1989

Two films will be featured in the Teague Auditorium during our 20th Anniversary commemoration of Apollo 11.

FOR ALL MANKIND (Al Reinert)...90 minutes. A 35mm feature film that creates a vicarious journey to the moon through the real-life experiences of those who originally explored the moon, the Apollo astronauts. During the four years between December 1968 and November 1972, there were nine flights to the moon. The film is structured as one trip to the moon, recounting all the drama and danger of those moon voyages. Twenty-seven men made the journey, the first human beings to leave the planet Earth for another world. "For All Mankind" is their story; drawn from the film they brought back, it is their words in their own voices. It represents their collective story just as they represented all of us.

BUILDING TOWARDS NEW HEIGHTS (NASA Film)...30 minutes. A 16mm film that showcases the on-orbit work that has been accomplished by NASA astronauts in the Skylab and Space Shuttle Programs. Work such as testing the Manned Maneuvering Unit on shuttle mission 41-B, repairing the Solar Max satellite on 41-C, and salvaging the very same satellite on 51-I.
